

19th Symposium for Foresight and Technology Planning

— A forum for strategists.

Submit your contributions on the following topics:

- Scenario technology
- Innovation management
- Advanced systems engineering
- Circular economy
- Safety, security and resilience
- 5G: potential for industry
- Future of the human-machine interaction
- Platform economy, smart services

Conference proceedings

Provide an insight into your research or use cases in the field of foresight and technology planning!

All contributions will be peer-reviewed (double-blind) and published in a digital reference book at the event.

Abstracts can be submitted until **04th April**.

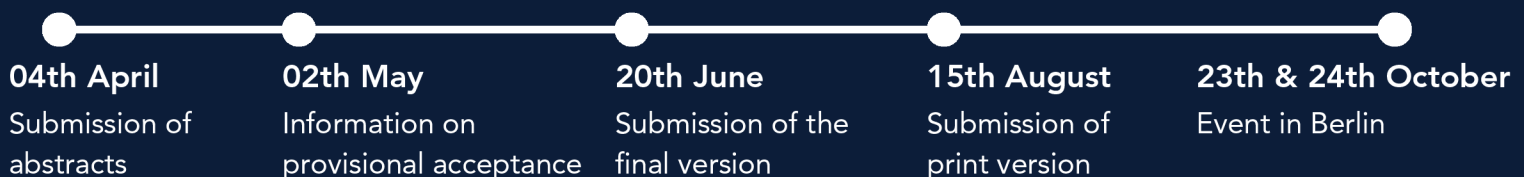

Industry Track

Present your best practices to a high-calibre audience from research and industry and show how your company is actively shaping the future.

Send your **topic proposals in two to three short sentences** to the conference secretariat (svt@hni.upb.de).

After successful consultation, the short papers must be submitted by **20th June**.
