

20. Symposium for Foresight and Technology Planning

— A forum for strategists.

» Strategic Foresight in Times of radical Uncertainty «

We look forward to receiving papers on these topics:

- Methods and tools for strategic foresight
- Digital transformation and networked value creation systems
- Human-technology interaction and working environments of the future
- Sustainable industries and the future of energy
- Approaches and instruments for security and resilience planning
- Unusual approaches to foresight and technology planning
